

REBELS MENACE SANTAGO, CUBA

Destruction of Property Is Most Serious Phase of the Cuban Rebellion.

Santiago, Cuba, March 29.—Two hundred rebels wearing the uniform of the regular army entered the city early today, destroyed the buildings of a small park on the Miramonte road and retired without encountering serious resistance from the government forces. A detachment of about 20 advanced along the road further into the city until about the cemetery when about 100 shots were exchanged with the troops garrisoning the city. Apparently there were no casualties.

The destruction of cane has continued though on a diminishing scale. At one place where the rebels made a determined stand, having adopted tactics of guerrilla warfare.

The most serious phase of the situation, as viewed by Americans now, is the danger of destruction of valuable property. Threats made by the rebels to destroy property of the Bethlehem Steel corporation at Pinar del Rio, a few miles to the east where the company is operating iron mines, caused commander Belknap to land there a force of American marines and the marine guard which had been removed from the Colón just west of Santiago, where big copper mines are worked, was replaced this week.

A NEW PAPER. "The Huddell County News" has made its appearance at Sierra Blanca, the county seat of the newly created county. H. Wyatt is the editor. It is a four-page paper of five columns to a page.

CAN WALK 3 MILES

Troubles of Heart, Stomach, Digestion All Removed.

To look at Mr. David V. Remington of Springfield, Mass., one would say, "He is as sound as a nut."

Mr. Remington is one of the best-known men in the State, having been for 21 years in the State House in Boston as Senate Doorkeeper and Sergeant-at-Arms.

He says he had annoying symptoms about his heart, stomach and digestive organs. His old friend, Senator George E. Putnam, of Lowell, urged him to take a course of Hood's Sarsaparilla and Peppermint Pills.

These medicines are obtainable from every druggist. Why not begin this sensible treatment yourself today?—Adv.

HELPFUL HAIR HINTS

Worthy the Attention of Everyone Who Would Avoid Dandruff, Itching Scalp, Gray Hairs and Baldness.

If your hair is getting thin and you are troubled with dandruff or itching scalp, get 50 cents' worth of Parisian Sage from your druggist. This helps to prevent baldness and grayness and keeps the scalp clean.

"A lady visiting friends says, 'Parisian Sage is the best hair treatment I ever used. It keeps the scalp free of dandruff, prevents hair falling and stops itching scalp.'"

"Before going to bed I rub a little Parisian Sage into my scalp," says a woman whose luxurious, soft and fluffy hair is greatly admired. This keeps the hair from falling out and makes it easy to dress attractively.

Beautiful, soft, glossy, healthy hair for those who use Parisian Sage. You can get a bottle of this inexpensive, delicately perfumed and non-greasy hair invigorator from Kelly & Ballard and druggists everywhere, with guarantee of satisfaction or money refunded.—Adv.

This Actually Removes Superfluous Hair Roots

(Entirely New and Instantaneous Method.)

By the introduction in this country of what is known as the "epilating process," and women can now rid herself completely of annoying superfluous hair or fuzz. The process is entirely new, different from all others, and far better—because it actually removes the roots, as well as the surface hair. It is instantaneous, perfectly harmless, odorless and non-irritating.

Just get a stick of epilate from your druggist, follow the simple directions and see the hair roots come out, with your eyes! No depilatory or electrical treatment can produce this result. The stick is left soft, smooth and hairless as a child's. Epilate can be used with absolute safety—none could see it with impunity. If it doesn't do exactly as claimed, you can have your money back without question.—Adv.

WHY SOCIETY WOMEN WASH THEIR OWN HAIR

They do, not because it is a fad, but because they wish to obtain the greatest possible hair beauty and be sure they are not using anything harmful. They have found that in washing the hair it is never wise to use a make-shift but is always advisable to use a preparation made for shampooing only. Many of our friends say they get the best results from a simple home made cantharix mixture. You can use this at a cost of about three cents a shampoo by getting some cantharix from your druggist, and dissolving a teaspoonful in a cup of hot water. This makes enough shampoo liquid to apply to all the hair instead of just the top of the head, as with most preparations. Dandruff, excess oil and dirt are dissolved and entirely disappear in the rinsing water. Your hair will be so fluffy that it will look much heavier than it is. Its lustre and softness will also delight you.—Adv.

The Perfect Food for Invalids. Highly recommended by prominent physicians for indigestion.

WIDEMANN'S PURE, EVAPORATED GOAT MILK. Easily digested by even the weakest stomach; wonderful in its body-building properties.

AT LEADING DRUGGISTS. WIDEMANN-GOAT MILK CO. Physicians' Disp., San Francisco, Cal.

Local Oil Man Says Demand Up, Production Down; Gas May Go to 26c.

Aerial prices for gasoline in El Paso are lower than in any other south-western city at the present time and are likely to go up rather than down, according to L. E. Lockhart, general manager of the Rio Grande Oil company, who has just returned from a convention of oil jobbers in St. Louis.

"Every jobber present was asked to estimate his sales for 1917," said Mr. Lockhart, "and these estimates averaged 80 percent increase on the 1916 business. Figures were presented to show that the crude oil production of North America will be 20 percent less this year than last. This would indicate a real scarcity of gasoline, despite improved refining methods."

Gasoline Higher in Tulsa. "The Oklahoma City" of the midcontinent oil district, gasoline is selling at four cents a gallon higher than in El Paso, while the rate here has to be added. In Tulsa they are predicting a retail price of 30 cents a gallon and if that becomes effective, the El Paso price will likely go to 26 cents.

The refiners control the situation and despite the fact that the Standard Oil company now produces only 58 percent of America's crude oil, as against 90 percent a few years ago, the Standard price continues to be the price basis of the independent refiners and the jobbers are helpless. We've got to take what we can get, and it will give us a small profit and pay transportation expenses.

"While it was in Tulsa the price of both gasoline and kerosene advanced one cent a gallon. This price advance has not yet reached El Paso, but it is sure to come soon."

BREVITIES. (Advertisements.)

Trains Bulletin.

All afternoon and night trains for today are reported on time.
